SpecificName

SpeciesNo

Country

State

County

GeographID

Locality

Individuals

CollDate [name of field sometimes misleading: HS specimens and some LN and RS specimens were not collected; recordings of free insects assigned CollDate that equals TapeDate]

CollNo [refers to tblFieldNotes]

CollEndingDate [last date of range of dates]

NSDateBegin [nonstandard date begin]

NSDateEnd [nonstandard date end]

Collector [for HS records and some LN and RS records, specimens not collected]

Source [museum or collection; used only for SP records]

Origin [intermediate or final source of record= where record was copied from or , if new, who entered it]

AuthorName [LN records only; includes authors of notes]

PubDate [LN records only; includes years of notes]

Page [LN records only and only for literature records]
